## FOR IMMEDIATE RELEASE:

June 22, 2004  
NR04-029

## RED SNAPPER COMMERCIAL FISHERY IN GULF OF MEXICO FEDERAL WATERS WILL OPEN AT NOON, JULY 1, 2004

The National Marine Fisheries Service (NOAA Fisheries) announces that the commercial fishery for red snapper in Gulf of Mexico federal waters will open at noon, local time, on July 1, 2004, and close at noon, local time, on July 10, 2004. The 2004 Gulf of Mexico commercial red snapper quota is 4.65-million pounds. The commercial fishing season is divided into spring and fall seasons. The spring season began at noon, local time, on February 1, with 3.10 million pounds available, and the fall season begins at noon, local time, on October 1, with the remainder of the annual quota available. During the spring and fall seasons, fishing will be allowed the first 10 days of each month until the quota is caught.

Preliminary landings data for February 1-10, 2004 (482,863 pounds), March 1-10, 2004 (546,627 pounds), April 1-10, 2004 (683,543), May 1-10, 2004

(500,082), and June 1-10, 2004 (268,177) totaled 2,481,292 pounds of red snapper landed. Therefore, a total of 618,708 pounds remain in the spring quota. It should be noted that June landings are incomplete due to late reporting by some federally permitted dealers. These landings will be revised when all dealer reports have been received.

The operator of a vessel with a valid reef fish permit and a Class 1 or Class 2 red snapper license having red snapper aboard must have landed and sold such red snapper before noon, local time, on July 10, 2004. The minimum size limit for the commercial fishery is 15 inches total length.

NOAA Fisheries is an agency of the Commerce Department's National Oceanic and Atmospheric Administration.
